Open Rank Faculty Positions in Computer Science

The Department of Computer Engineering and Informatics at Universidad de Tarapacá (UTA) in Arica, Chile, invites applications for open rank faculty positions with an expected start date of February 2, 2024.

The Department seeks candidates who have demonstrated originality and productivity in research and promise to teach in Spanish at both undergraduate and graduate levels.

We offered five positions focused on the following research fields:

- Artificial Intelligence
- Software Engineering
- Engineering Education
- Machine Learning
- Natural Language Processing
- High Performance Computing

At least three positions will be guaranteed for female researchers.

Gross salary will start from 36.000.000 CLP per year, commensurable with the expertise. About 20% of the wage has to be paid for taxes to the Chilean state.

A resume with an ORCID research ID, a list of publications, up to five representative works, a description of research and teaching plans, and two reference letters are required by December 15, 2023, for full consideration. Applications received before October 22, 2023, may be considered in the early decision. Further information about the Department can be found on the web:
